## EDUCATION

Ph.D. Degree	2015	Ph.D. in Technology University of Girona, Spain
Master Degree	2001	MS. Computer Engineering Management (MsCEM) Assumption University
Bachelor Degree	1999	Bachelor of Science  King Mongkut University

## RESEARCH INTERESTS

Dr. Voravika Wattanasoontorn's research interests span across multiple interdisciplinary areas in digital media technology, with a primary focus on serious games, virtual reality (VR), and augmented reality (AR). She is particularly engaged in developing interactive applications aimed at educational, training, and healthcare purposes, leveraging game-based elements to enhance user engagement and learning outcomes. Her expertise also extends to human-computer interaction (HCI), visualization and interactive technologies, and computational aesthetics, where she explores how design and technology intersect to create immersive and effective user experiences. Additionally, her work includes multimedia and digital media technology development, including interactive media and package design, contributing to both academic research and practical applications in industry.

*Game design principles, mechanics, and player experience optimization*

*Serious games and their applications*

*Virtual Reality (VR) and Augmented Reality (AR) for interactive experiences*

*Computational aesthetics and design in multimedia and digital content creation*
